

# ACTIONQUOTE Collector

## Load Website Forms Data directly into Actionquote Desktop

- Actionquote Collector gives the user the option to increase profitability, streamline operating overheads and improve level of service provided to your customers.
- Customer can request a quote directly from your own website.
- With advance software integration technology policy processing time will dramatically reduce to a single entry of data.
- Accuracy of data will be improved with a simple click of the mouse as Actionquote Collector is automatically launched onto your computer with all of the required Actionquote desktop fields automatically populated.
- A simple click of the mouse and you will see a full list of insurance quotations.

The screenshot shows a Windows Internet Explorer browser window displaying the NAQ Insurance website. The address bar shows the URL <http://www.naqinsurance.com.au/>. The page title is "NAQ Insurance". The main content area is titled "Motor Insurance" and contains a form for requesting a quote. The form includes a "Vehicle Details" section with various fields for vehicle information and registration details. Below the form, there is a question about where the vehicle is normally garaged.

**Motor Insurance**

Please complete the form below and click **Continue**. You will then be presented with a confirmation page. After confirming, your details will be passed on. A consultant, who may be able to improve on the terms provided, will contact you.

Before continuing please read the terms and conditions (click [legal page](#)) and privacy statement (click [privacy consent page](#)).

Actionquote Collector gives the potential customer the option of requesting a quote directly from your own website. Once the quote request details are complete and the potential customer clicks the submit button, an email is sent directly to the email address of your choice. Within the email is a fully integrated XML attachment.

Email with XML attachment

Once this attachment is opened Actionquote desktop is automatically launched onto your computer and all of the required fields are automatically populated. From here with a simple click of the mouse and you will see a full list of insurance quotations

Actionquote Desktop with populated fields

The contact details of the potential customer are captured within the body of the email, so a simple phone call is all that is required to complete the transaction.
